SUMMARY

Full Stack Developer specializing in MERN Stack, focused on building scalable web applications and RESTful APIs with secure authentication and cloud deployment. Strong problem-solving foundation with hands-on experience in Docker, CI/CD pipelines, and production-grade deployments.

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML, CSS.

Frameworks: React.js (Hooks, Context API), Node.js, Express.js, Tailwind CSS, Bootstrap.

Cloud/Databases: MySQL, MongoDB, AWS.

Developer Tools : Git, GitHub, Docker, Kubernetes, CI/CD, Render, Vercel, Postman, Hoppscotch.

PROJECTS

Examora-AI Platform | *React.js, Node.js, Express.js, MongoDB, JWT*

Jan 2026 – May 2026

- Architected a **MERN-stack exam platform** with **face detection** and **tab-switch monitoring**, supporting **3 user roles** and **30+ simultaneous exam sessions**.
- Designed **20+ REST API endpoints** with secure **authentication patterns** and **multi-role user system** architecture.
- Built responsive **Student** and **Admin dashboards** with **real-time analytics**, automated **result processing**, and **performance tracking**.
- Implemented **performance optimizations** using **React memoization**, efficient state management (**Context API**), and **MongoDB indexing** with strategic **query optimization**.

TradeX–Trading Platform |

- Engineered a full-stack trading platform with **4 core modules** - **Portfolio, Holdings, Watchlist, and Order Management** - handling **real-time data** across sessions.
- Integrated real-time market **data visualization** with **sub-second refresh** and **analytics dashboard** for portfolio performance tracking.
- Containerized using **Docker** and deployed via automated **CI/CD pipeline**, enabling zero-downtime updates.
- Designed **JWT-based authentication** and **25+ RESTful APIs** for **user management** and **transaction handling** with full error logging.

Turf Booking Platform | *MERN Stack*

Jun 2025 – Nov 2025

- Built a full-stack sports **venue booking platform** enabling **end-to-end booking flow** — **discovery, slot selection, and reservation** — with a clean responsive UI.
- Implemented **real-time slot management** with conflict-prevention logic, achieving **0 double-booking incidents** across all test sessions.
- Designed **20+ REST APIs** and optimized **MongoDB schema** with indexing, reducing booking query response time to **under 200ms**.
- Developed **User** and **Admin dashboards** with **booking analytics**, deployed on Vercel + Render with **99%+ uptime**.

EDUCATION

Chameli Devi Group of Institution

B.Tech Computer Science

Indore, Madhya Pradesh

2022 - 2026

CERTIFICATIONS/ACHIEVEMENTS

- * **C++ Programming Internship** — TechnoHack.
- * **Built and deployed 3 production-grade full-stack projects**.
- * **Actively solving Data Structures and Algorithms on LeetCode**.
